Akumulator GEPRC VTC6 18650 6S2P 6000mAh Li-Ion XT60 Batteries

Cena brutto	899,00 zł
Cena netto	730,89 zł
Dostępność	Aktualnie niedostępny
Kod producenta	GEPRC VTC6 18650 6S2P 6000mAh Batteries
Producent	GEPRC

Opis produktu

GEPRC Lion VTC6 4S1P3000mAh is a battery specially design for Micro Long Range Flight.Using the imported fully battery cell of SONY VTC6 18650,Discharging 30A current continuously,It perfectly matches the requirements of Micro Long Range Flight.The SONY VTC6 18650 is very safe and powerful.Recommending that the discharge voltage should be 2.5V per section. If the discharge voltage is lower than 2.0V,the cell will be damaged permanently.The full voltage of each cell is 4.2V,There are two charging mode:Lipo & Li-ion,You can selected when charging.The High-efficiency performance will satisfy all of desire of Long Range Flight

GEPRC-VTC6-6S2P 6000mAh

- Cell Model: SONY VTC6
- Capacity: 6000mAh
- Nominal Voltage: 22.2V
- Max. Charge Current: 5A
- Max. Charge Voltage:4.2V per cell
- Max. Continuous Discharge Current: 30A
- End voltage: 2.5V per cell
- Weight: 607g
- Size: 111mm * 38mm * 69mm
- Power Lead: XT60/XT30
- Balance Lead: XH2.54

Features:

- Original brand-new SONY VTC6 18650 high quality cells.
- Very suitable for long range flight,discharge current 30A.
- GEPRC LionPack batteries will never puff and become unsafe like a Li-Po.
- GEPRC LionPack batteries can be charged from empty or nearly full without damaging the pack.
- GEPRC LionPack batteries can be charged over 350 times and still store 85% of its original capacity.
- High quality fireproof heat shrinks outer skin.
- Compact size.Light weight.
- Ideal power solution for all RC hobby products, including RC cars, boats,etc...
