Opis produktu

Summary

GEPRC Peano antenna is a 5.8G optimized antenna for FPV quad. The antenna has good gain performance and very compact. Working frequency range is 5600-5950 Ghz, with LHCP and RHCP options for multi-player competition. Peano 5.8G antenna also has a variety of connector options. Every antenna has been tested strictly before leaving the factory to ensure good performance.

Features

1. Compact and light-weight design, high quality ABS case for good protection and nice appearance.
2. Options of LHCP and RHCP.
3. Manufactured and tested to highest standards
4. Easy to install, multiple connectors and length options.

Specifications

- Frequency Range: 5600-5950MHz
- Polarization: LHCP/RHCP
- Gain: 2.5DBi
- SWR: ≤ 1.5
- Input Impedance: 50 Ω
- Radiation Efficiency: 98%
- Connector: UFL/MMCX
- Weight: 3.9g~4.4g
- Height: 175mm/195mm
- Radome material: ABS
- Radome color: transparent grey

Includes

1 x GEPRC Peano 5.8G Antenna

Produkt posiada dodatkowe opcje:

Długość: 110 mm , 145 mm , 50 mm

Polaryzacja: LHCP

Złącze: MMCX 90 , UFL
