Dron flight BOB57 Cinematic LR & Freestyle 6inch w/Nebula Pro Vista HD System - BNF

Cena brutto	3 115,57 zł
Cena netto	2 532,98 zł
Dostępność	Aktualnie niedostępny
Kod producenta	F012742
Producent	IFLIGHT

Opis produktu

The pilot & videographer Ellisvanjason and iFlight teamed up to craft a cinematic 6 inch drone that ensures agility and flight time and therefore combines the advantages of both 5 inch and 7 inch drones.

Features:

- 6 inch drone re-engineered: This drone was specifically designed for 6 inch
- H-shaped frame with robust middle section for less props in view while remaining stiffness
- XT60 front-mount: Compare to other drones the mount sits in the front and gives more space on the back.
- Built in BEC to directly power a gopro (no battery needed)
- Hybrid motor design: This motor is optimized for 6 inch. Can be used with bi- blades (efficiency) and tri-blades (agility & trust).
- Antenna mount: Solid antenna mount for less oscillations when using long antennas
- Long back bone: Enough space up to 3000mAh 6S batteries
- Gladiator shell: Protection shell from dust and water droplets (shall be removed for max. flight time)
- GPS: A high-end GPS is used to minimize the risk of failure during proximity flights
- ESC: The drone consists iFlight's new ESCs with built-in spike absorber for more reliability

- 9+ with 3000mAh 6S Lipo or 4000mAh 6S Li-Ion
