## Opis produktu

### Summary

GEPRC’s MARK5 AVATAR version developed specifically for Freestyle is now officially released, a new HD FPV system that provides customers with diverse HD solutions.

MARK5 is developed specifically for freestyle with squashed X arm design. Unique shock absorbing structure design, less vibrations and resonance provide a stable operating environment for the electronic system. Aluminum alloy side plates not only look stunning but reduce weight and add more endurance. MARK5 is equipped with GEPRC’s latest SPAN F722-BT-HD v2 with high performance and lots of ports, supporting Bluetooth wireless connection for easy field tuning. Freshly upgraded SPAN 50A BLHeli_32 ESC with GEPRC’s latest 2107.5 motor, has great explosive power and very fast response speed. The new GEMFAN Freestyle 4S propellers provide delicate and silky smooth flight experience. The MARK5 is shipped with two different 3D printed action cam mounts that can be fitted with GoPro8/10, Naked GoPro8, Naked GoPro10, Insta 360 GO2, Caddx Peanut and DJI Action 2 cameras. After continuous testing and tuning by GEPRC R&D team, we are proud to say, this is yet another GEPRC drone that comes perfectly tuned right out of the box. Just take it out, plug the battery and have fun!

We’ve been pursuing for lighter weight, better flying experience, and more functionality for all our products!

## Feature

1. Aluminum alloy side plates not only look stunning but reduce weight and add more endurance.
2. Supports Bluetooth wireless connection for easy field tuning.
3. Developed specifically for freestyle with squashed X arm design.
4. HD AVATAR version uses AVATAR VTX, clear FPV image, stable signal, low latency, long distance, supports 1080p/60fps real-time FPV image.
5. Freshly upgraded GEP-50A ESC 4in1 ESC with GEPRC’s latest 2107.5 motor, has great explosive power and very fast response speed.
6. Unique shock absorbing structure design, less vibrations and resonance.
7. Specially designed independent capacitor and buzzer compartment for better performance and shaking reduction.
8. Shipped with two different 3D printed action cam mounts that can be fitted with GoPro 8/10, Naked GoPro 8, Naked GoPro 10, Insta 360 GO2, Caddx Peanut and DJI Action 2 cameras.
9. MARK5 is the most ideal for freestyle flying and bando-bashing resistant.

## Specifications

- Model: MARK5 HD VISTA Nebula Pro Quadcopter
- Brand: GEPRC
- Frame: GEP-MK5
- Wheelbase: 225mm
- Top plate: 2.5mm
- Bottom plate: 2.5mm
- Arm plate: 5mm
- FC system: SPAN F722-BT-HD v2 (No barometer but more stable)
- MCU: STM32F722

- IMU: 42688-P (SPI)
- OSD: BetaFlight OSD w/AT7456E chip
- ESC: SPAN G50A BLHeli_32 4IN1 50A 4-6S ESC
- VTX: Vista
- Camera: Nebula Pro
- Propeller: HQ Ethix S5 5X4X3
- Antenna: Walksnail WNPJ-00001 5.8g UFL LHCP
- Motor: SPEEDX2 2107.5-1950KV (6S Version) / SPEEDX2 2107.5-2450KV□4S Version□
- Weight: 385g
- Receiver: PNP, Frsky R-XSR, TBS Nano RX, ELRS 2.4G
- Recommended Battery: LiPo 4S 1300mAh-1800mAh (4S Version) / LiPo 6S 1050mAh-1550mAh(6S Version)

## Includes

1 x MARK5 HD Avatar Quadcopter

4 x HQ Ethix S5 5X4X3 propeller (pair)

1 x Battery strap M15x250mm

2 x Battery strap M20x220mm

2 x Battery Silicone Pads

1 x Camera cage carbon top plate

1 x 3D print mountings combination

2 x Action cam mount holder

1 x Set of screws

1 x Set of screwdrivers

1 x Antenna fixed tube

## Produkt posiada dodatkowe opcje:

**Odbiornik**: ExpressLRS 2.4G (+ 123,25 zł ), TBS Crossfire (+ 172,55 zł )
**Zasilanie**: 4S , 6S
